The following is a statement of coal transported on the Delaware and Hudson Canal for the week ending

June 6, 1868, and for the season : Week. 390,615 6,952 307,567 Total tuns......38,488

The prospects of the Wheat crop in Virginia are cheering. Persons just arrived in Richmond from a trip through Abemarle, Amherst, Campbell, Bedford, Roanoke, and Botetourt, report the most encouraging prospect for a fine yield of wheat. Unless there should be a great deal of rainy weather, there will be a large crop. In Bedford the wheat is unusually high and well-headed. Reports from Georgia say that the rust being confined to the blade will not hurt the wheat. About an average crop is hoped for. Some will be ready to harvest by the 10th of June. They also report the cotton crop promising and never in a better condition than at present, crops clean and lands in good condition. One-third ess cotton has been planted this than last year. Good stands have generally been obtained, but in consequence of the wet Spring and cold nights the plant is backward. The hot weather of the last few days has had a fine effect upon it, and it is already beginning to come out and look more vigor-Corn everywhere looks splendid. A fine crop of it has been planted, and farmers expect as a general rule, to make enough to supply their wants. Enough wheat will be garnered to almost supply all the counties. The negroes since the election are working stendily and well.

From Maryland the report is that the wheat crop presents a very fine appearance, but it is thought that the long continued wet has caused a too rapid growth, and the only danger now is to be apprebended from its making too much straw. Should the remainder of the season be good, the indications are in favor of the finest crop ever produced. In some districts the farmers have finished planting corn. The corn which is already up presents a sickly appearance, owing to the absence of warm suns.

The London Cosmopolitan, in an article on Bogus

of the failure. The amount of liabilities is estimated at about £80,000, and the lesses are said to fall mostly on Americans.

We give from the paper alluded to the following:

"The disgraceful failure of this firm has caused the American community both surprise and indignation. At first, about three years back the title was Keith, Waye & Eastman, but Mr. Belding joined it some two years ago, when Waye and Eastman withdrew, and the small sum brought into the concern by the new partner was sufficient to tide over the period of depression which followed on the great crisis of May, 1866, the liabilities being then inconsiderable. Offices were taken in Lombard-st., and with an extensive circular, and all the publicity that posters, books and advertisements could give, the house as thus formed commenced its career as American bankers and commission agents. It appears that Mr. Keth proceeded a short time ago to New York, to raise, if possible, £10,000, to float the company through its difficulties, but, failing in this, Belding, the partner, who remained in London, seems to have decamped with all he could lay hands upon. He announced this in a laconic notice, dated the 9th instant, wherein he informed those it concerned that Mr. Keith, having failed to raise a single penny, he (G. W. Belding) had "found it expedient to take the small balance of cash in hand to try if he could do any better." The small balance referred to is supposed to have been some £10,000. It appears that last Satucday he drew the balance of the bank, amounting to £3,000, having previously obtained cash for a check for £1,500. A valuable deposit of American gold lately left with him for safe keeping was against the owner's express instructions exchanged for English coin, and appropriated. A meeting of his creditors was held on Thursday, and the facts that transpired were not of a reassuring nature."

We think the above efficial expose fully justifies all these we have said by way of warming to our American.

we think the above official expose fully justifies all that we have said by way of warning to our American friends; many of our countrymen have been suddenly left "high and dry" in Europe by the collapsing of the so-called bankers, to whom all their traveling funds were

BANKING AND FINANCIAL.

NEW-YORK, June 4, 1868. CENTRAL PACIFIC RAILROAD FIRST MORTGAGE BONDS-SPECIAL NOTICE.—The receipts from sales of these securities for some time past having largely exceeded the current requirements of the Company, they have this day advanced the price to 103 and accrued interest, in currency. Fisk & HATCH, Bankers, and Dealers in Government Securities

and Financial Agents of the C. P. R. R. Co.,

BOOKSTAVER, THAVER & SLOSSON have removed from the old location on Broadway to No. 10 Wall-st., where they are prepared to do a general Stock, Government, and Bond business. BOOKSTAVER, THAYER & SLOSSON, June 8, 1868. No. 10 Wall-st.

From The Journal of Commerce.

From The Joarnal of Commerce.

To Meechants and Manufacturers, and Also Stockholders of Fire Insurance Containes: I me informed by the Presidents of several of our best city finsurance Companies, that 26 out of 100 City Companies have associated themselves together for the purpose (through their "solicitors") of endeavoring to procure from merchants and others having large lines the whole amount of their insurance, to be divided among them, and whoever may in future join them.

The plan is, when they have sthrough their solicitors in their way procured orders for renewals of policies, to go to the Companies not so associated, and offer to renew at "book raise," provided such Companies will join them, and who favor Insurance Brokers and Agents. I am also informed that they have a "Clearing-house," or weekly place of settlement, where the \$406,000 capital companies received by the "solicitors" as the \$206,000 capital companies. This is, of course, a good arrangement for the largest companies will discover, after deducting the rebate of 10 per cent to the assured, and raying the solicitors of the \$200,000 capital companies. This is, of course, a good arrangement for the largest companies will discover, after deducting the rebate of 10 per cent to the assured, and paying the solicitors their compensation in addition thereto, and when "dividend day" rolls round. This association consists of about one-surft of all the Insurance Companies doing business in this city, and is formed in opposition to Insurance Agents of out of town companies, husurance Brokers, and other independent city companies, husurance Brokers, and other independent city companies, husurance Brokers, and other face companies the Mercantile and other Insurance Agents of out of town companies, husurance Brokers, and other independent city companies, husurance Brokers, and other face companies the Mercantile and other Insurance Agents

other Importers and Jobbers; but they will find that our merchants up-town, who are mainly indebted to the Independent Companies and Insurance Agents and Brokers for the first 25 per cent reduction on rates last December, thus compelling (these now) confederate companies to follow suit, will not be willing to give business to the Association or to those Companies who assessed merchants 25 per cent by raising the rates that much additional to the former advance, in order to pay for the losses by the "Chittenden fire," and who, if they could only exclude from the Insurance business the 60 out-of-town and other Independent Companies and the 300 Insurance Brokers, might soon repeat the 25 per cent advance, and perhaps double it.

Difference in favor of the non-"associated" Companies, about \$35,369,092

AT NINETY FIVE PER CENT, ONE MILLION BOLLARS OF THEIR MORTGAGE BONDS,

bearing INTEREST at the rate of SIX PER CENTUM per annum, FREE OF STATE and UNITED STATES TAXES,

Said Bonds are either Coupon or Registered, and are SECURED by MORTGAGE on the RAILROAD and BRANCHES, the ROLLING

the amount to be paid for taxes.

I. CRAMBERLAIN, Secretary.

NOTICE to ANY and ALL HOLDERS of the PUNDED or BONDED INDESTRINESS of YIBA COUNTY, CALIFORNIA.—Notice is hereby given that all holders of any of the funded or bonded indebtedness of the County of Yuda, may, at their option, present and surrender the same to the "Loan Commissioners of the County of Yuda," at the Treasurer's office of said county, in the City of Margaville, at any time before the lat day of July, A. D. 1868, and receive in lieu thereof the bonds of said county, bearing interest as eight per cent per somm, parable semi-anumity, in Jaquary and July, both principal and interest to be paid in geld coin; said honds being issued under an act therefor "approved Pebruary 12, A. D. 1869," and that all such midelitedisess of said county will cease to draw interest after the lat day of July, A. D. 1869, and that all such midelitedisess of said county will cease to draw interest after the lat day of July, a. D. 1869, and that all such midelitedisess of said county will cease to draw interest after the lat day of July, a. D. 1869, and that all lates of July, a. D. 1869, and that all lates of July, a. D. 1869, and the said of July, a. D. 1869, and the said such midelitedises of said county will cease to draw interest after the lat day of July, a. D. 1869, and that all lates of July, a. D. 1869, and that all lates of July, a. D. 1869, and the said such midelited such as a such

UNITED STATES TREASURY, June 8, 1868. July 1, will now by received for examination. H. II. VAN DYCK, Assistant Victoria; et al.

TO CAPITALISTS.—The undersigned oner for sale, at par, a limited amount of the BONDS OF THE PORTLAND WATER COMPANY OF PORTLAND WATER COMPANY OF PORTLAND WATER COMPANY.

These bonds hear six per cent interest, payable in gold, and the principal is redeemable in gold in twenty years. The company are payable semi-annually, in Buston, on the last of April and the let of October. The Company is chartered by the State of Maine with a capital of \$1,000,000, and is authorized to issue is aboute to the event of \$500,000, accured by a mortgage on its entire property and franchise to ar-Gov. Israel Washburne, fr., and Mayor Jacob McLellan, trusteea. The grace of these bonds will be applied in part payment of the cost of the works. The contract for material and the completion of the eatire works is with the American Water and Gas Pipe Company of New-Jersey, under guaranties and bonds comensurate with the value and importance of the works.

The supply of water is from Lake Sebago and its tributaries, which, together, cover an area of 160 square miles. The works are based upon a supply for three times the present population of Portland. The water is obtained by gravitation and without machinery, the lake being 247 feet above tidewater, and distant from the city about 16 miles.

Attention us called to the following indorsonents:

[Official: From the Mayor of Portland.]

The rapid progress of the Portland Water Works and the necessity for their completion as a guard to the safety of the property and the health of the city demand of me a public expression of confidence in the managers and their securities.

The bonds are based upon a liberal franchise and expenditures largely in excess of bonds issued, and with a knowledge of these facts and the necessity of bonds issued, and with a knowledge of these facts and the reduction of bonds of the Company to the chiases of Portland, and the reduction of the Bonds.—Portland, March 25, Official Seal of the . 1963.

Live Bernick and the properties of the properties of the public at large

City of Portland.

[From Ex-Mayor STEVENS of Portland.]

Having had the opportunity of becruing acquainted to some extent with the plan of the Portland Water Compacy, and knowing something of its ability to prosecute successfully the work it has undertaken, I would recomment its Bonds to the faverable notice of the public, behing that the judicious management of the Company will make them a safe and profitable investment.

Prom ex-Gov. I. Washidam, June 2, 1868.

Prom ex-Gov. I. Washidam, June 2, 1869.

Having been made one of the Trustees in the Deed of Trust of the Portland Water Company, I have naturally looked somewhat into the condition of the Company, and made inquiry in reference to its movements and prospects.

I am fully persuaded that the enterprise is, financially speaking, a wise and safe one, and that it will, with proper management, be highly remunerative. I cannot and do not doubt that the demand for water will be such as to make the enterprise successful and establish its securities as among our best investments.

For forther information in regard to the bonds apply to Mears. L. VON HOPFMAN & Co., No. 6 Hanover-st., or to G. T. BONNER & Co., No. 20 Broad-st.

ST. LOUIS AND IRON MOUNTAIN
RAILROAD COMPANY'S
SEVEN PER CENT
FIRST MORTGAGE BONDS,
PEBRUARY AND AUGUST COUPONS.

FIRST MORTGAGE BONDS.

PEBRUARY AND AUGUST COUPONS.

The title of the St. Leuis and Iron Mountain Railroad having been confirmed by act of the General Assembly of the State of Missouri, and the bonds declared value, the work of extending the same to a connection with the Southern system of reads at Columbus, Ky., is now going rapidly forward. Ninely-one miles being in profitable operation, 45 miles of new work graded, with rails enough on hand for 47 miles, it is expected that the whole line, from St. Louis to Belmont. 193 miles, will be opened for business early next year, so that there will be a continuous line from St. Louis to Mobile. New-Orleans and other Southern cities. A vary large traffic is anticipated.

The old part of the road (9) miles) already earns enough to secare all the interest on the whole merigage debt, and the extension completed, will vastly increase the earnings. The proceeds of these bonds going into the extension of the road adds to the security, and a projected branch, southwestwardly from Pilot Knob, for which a cash subsidy of \$615,000 per mile is granted by the State, as a free gift to the Company, will add very much to the value of their property.

We, the undersigned, cordially recommend these seen per cent mortgage bonds of the St. Touis and from Mountain Railroad as a goed security. The revenue of the road will be large, and the administration of the affairs of the Company is in capable and experienced hands, and is entitled to the greatest conditione of the pathle.
